EDUCATION

R.T.M. Nagpur University   Nagpur, Maharashtra

Bachelor of Business Administration   *Graduation Date: Apr 2018*

Profile Summary

Dedicated and adaptable fresher with 6 months hands-on experience in frontend engineering and application support. Completed a rigorous React Frontend Engineer Trainee program at Numetry Technologies, and have skills like React.JS, HTML, CSS, and Bootstrap while developing responsive interfaces for diverse projects. Led the frontend development for the "School_College" project, collaborating seamlessly with backend developers to ensure project cohesion. Previously, excelled as an Information Processing Specialist at Tata Consultancy Services, managing critical tasks within the DHL project and progressing to the role of Mentor, overseeing team operations and conducting audits for process efficiency. Skilled in troubleshooting and providing comprehensive support, with a proven track record of adaptability and innovation across various projects. Seeking opportunities to leverage skills in frontend development and application support to contribute effectively in a dynamic work environment.

WORK EXPERIENCE

Numetry Technologies   **Pune, Maharashtra**
Frontend Engineer   *Sep 2023 - Jan 2024*

- Completed a rigorous 4-month React Frontend Engineer Trainee program at Numetry Technologies, gaining hands-on experience in various frontend development tasks under the guidance of experiencedtrainers.
- Developed responsive and interactive user interfaces for diverse projects, including React Lightbox gallery, To-do List, Bank Landing Page, blog app, movie info, Multi-step form, and quiz app, demonstratingproficiency in React.JS, HTML, CSS, and Bootstrap.
- Collaborated effectively with team members on a full-stack project, "School_College," serving as the leadReact frontend developer. Successfully coordinated with backend developers to integrate frontend components with backend functionalities, ensuring project cohesion and functionality.
- Demonstrated adaptability and innovative skills by navigating through various project stages, from initial task assignment to project completion, while maintaining a keen focus on quality, performance, and user experience.

Tata Consultancy Services   Nagpur, Maharashtra
Application Support Desk   *Sep 2019 - Jun 2022*

- Served as an Information Processing Specialist at Tata Consultancy Services, focusing on the DHL projectunder UK Import. Responsibilities included validating shipments within the AS 400 system (Citrix domain) to ensure accurate revenue generation.
- Demonstrated managerial skills by advancing to the role of Mentor, where duties involved overseeing a team and conducting internal audits to ensure compliance and efficiency in shipment processes.
- Promoted to the Ultimatix project, where responsibilities shifted to providing comprehensive support to TCS employees and clients. This involved troubleshooting various issues such as password recovery, timesheet management, Ultimatix portal assistance, and resolving Outlook and Microsoft Teams issues.
- Collaborated within the Citrix process, utilizing the Global Help Desk ticketing tool to provide timely support for critical tasks such as password recovery, Ultimatix portal management, and addressing Outlook and Microsoft Teams-related concerns.

PROJECT EXPERIENCE

Numetry Technologies   Pune, MH
Frontend Engineer   *Start Date - Finish Date*

- Developed "School-College" platform from conceptualization to implementation, showcasing expertise in full-stack development and project management.
- Implemented comprehensive features enabling users to explore educational institutions efficiently,including detailed information on fees, admission criteria, hostel facilities, and available courses.
- Designed intuitive user interfaces to ensure a seamless browsing experience and facilitate informed decision-making for prospective students.
- Integrated secure application functionalities, allowing users to apply directly to educational institutions through the platform, streamlining the admission process.
- Utilized robust backend architecture and database management techniques to ensure scalability, reliability, and optimal performance of the platform, demonstrating proficiency in software engineeringprinciples.
